Triad-Orbit Synergy Series Clamps®

Spring and Grip Clamps

Kingston, Wash. (12-17-2018) – In Spring 2018, Triad-Orbit and 9.Solutions began a co-branding relationship resulting in the Synergy Series™ IO-Equipped Grip Clamp (SS-IOGC), Mini Grip Clamp (SS-IOGCM) and Spring Clamp (SS-IOSC). All products include our patented I-O quick-change coupler.

Synergy Series™ IO-Equipped Grip Clamp uses a powerful large tensioning handle to ensure its stability with loads up to 60 lbs. The clamp range is 0-60mm and is fitted on both jaws with ¼-20 and 3/8-16 threads allowing for multiple devices to be used, creating an ultimate front-line stand with tablet/phone and guitar holders, or holding lights, speakers, or video monitors from 2" lighting truss.

Synergy Series™ IO-Equipped Mini Grip Clamp is the miniature version of its big brother the Grip Clamp. It has the same load rating as the SS-IOGC, but in a smaller package. The clamp range is 0-30mm and is fitted with ¼-20 threads on one jaw.
